

Euro-Brite

Eurocom Superior Quality Electrodes

Providing Neon based lighting solutions to the American Signage Industry for more than 25 years, Eurocom is the quality and innovation leader of the world wide neon industry.

Superior quality and highly reliable products, delivered with excellent and friendly service. Satisfaction Guaranteed!

The Euro-Brite Electrode is no exception. Superior engineering and precision manufacturing make the Euro-Brite electrode the electrode of choice for Neon Professionals around the world.

Unrivalled Quality

The Euro-Brite Electrode is the first choice of professionals worldwide:

- The Euro-Brite Electrodes are available in seven diameters, from 8-mm to 18-mm, in either tubulated or non-tubulated styles. Solutions for all applications!
- The electrodes are put through a strenuous quality testing process in order to guarantee full operability in the field.
- All electrodes made with high quality stress resistant glass.
- Only the finest raw materials are used for the emitter coating and steel shell.
- A homogenous distribution of the emitter coating guarantees consistent quality every time.

Part Nr.	Length (mm)	Diameter (mm)	Current (mA)
ELE25 RB(P) 55	55	10	25
ELE30 RB(P) 55	55	12/13	30
ELE50 RB(P) 60	60	12/13	50
ELE45 RB(P) 50	50	15	45
ELE45 RB(P) 65	65	15	45
ELE80 RB(P) 60	60	15	80
ELE80 RB(P) 70	70	15	80
ELE45 RB(P) 65	65	16	45
ELE80 RB(P) 65	65	16	80
ELE75 RB(P) 55	55	18	75
ELE120 RB(P) 70	70	18	120
ELE150 RB(P) 75	75	18	150
ELE250 RB(P) 90	90	18	250
